PRODUCT DATASHEET

TC BC154UCV BEER COOLER

Under-the-counter, standing beer cooler with flow-through system. The TC BC154UCV is our self-developed cooler, which was designed with ease of installation and maintenance in mind. The under-counter beer cooler is made of plastic-coated galvanized sheet and has carrying handles on the sides. The beer cooler features a tap cooling system, equipped with a mechanical temperature controller, equipped with a stirring motor and a water level indicator. The continuous cooling capacity of the refrigerator is 154 liters per hour, so it is suitable for tapping up to 308 pints of cold beer. Spirals can be ordered as an option for the under-counter beer cooler, max. 3 beer spirals and 1 water circle spiral.
