PRODUCT DATASHEET

TC 160GDAN GLASS DOOR COOLER

High-quality, domestically manufactured, 160-liter refrigerator and display cooler. The ventilation cooling can be digitally controlled. An efficient condenser is served by a separate fan, allowing the cooler to be installed tightly under the counter. The appliance features 2 tiered wire shelves, plastic-coated steel outer shell, plastic-coated interior, and dual-sided vertical LED interior lighting. Premium-quality refrigeration equipment designed for long-term use. The smaller display cooler is ideal for small shops, newsstands for storing and selling drinks, sandwiches, sweets, wine, and beer. Thanks to the glass door, the contents of the display cooler are easily visible, attracting more attention from customers to the products inside, which can increase both store traffic and product sales. Cooling specifications are based on 60% air humidity and 25°C ambient temperature; deviations from these conditions may affect cooling performance!

PRODUCT DETAILS

DIMENSIONS

External size (mm)	600x585x820 (H)
Internal size (mm)	516x457x666 (H)
Net volume (l)	125
Gross volume (l)	136
Net weight (kg)	43
Gross weight (kg)	45
Number of shelves (pcs)	2
Shelf size (mm)	490x410
Shelf payload (kg)	30

TECHNICAL SPECIFICATIONS

Climate type	N
Temperature range (°C)	+2...+12
Thermostat	Digital
Refrigerant	R290a
Rated voltage (V)	230
Current (A)	0,5
Input power (W)	122
Energy consumption (kWh/24h)	1,08
Internal material/color	plastic-coated sheet steel / grey
External material/color	plastic-coated sheet steel / anthracite
Type of lighting	double vertical LED
Type of cooling	Dynamic

CAPACITY

330 ml glass bottle	102
500 ml glass bottle	98
330 ml can	175
500 ml can	112

ACCESSORIES

Lock	no
Canopy	no
